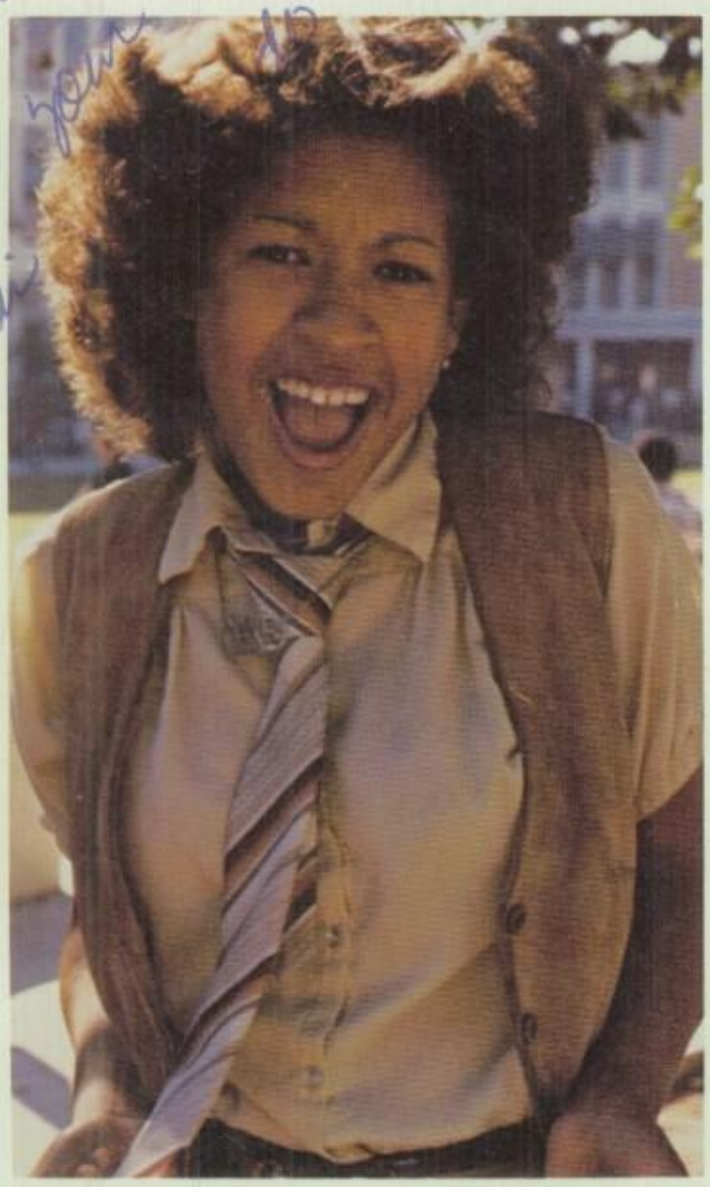
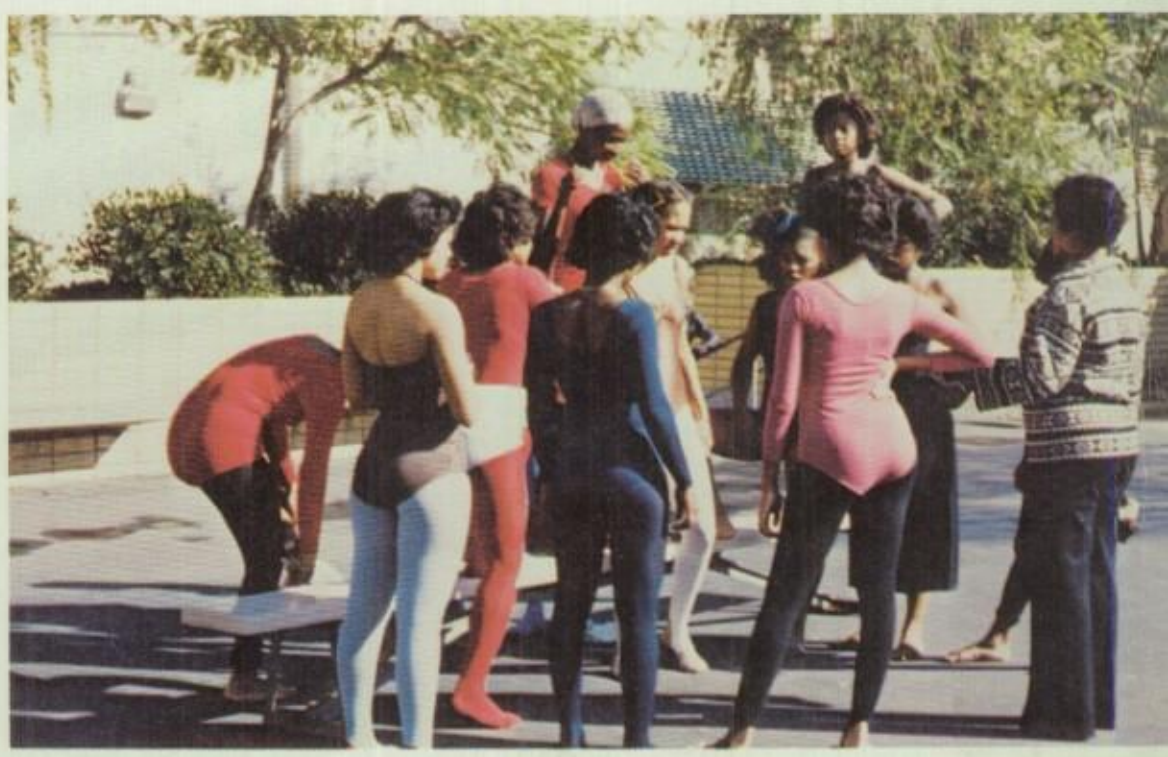
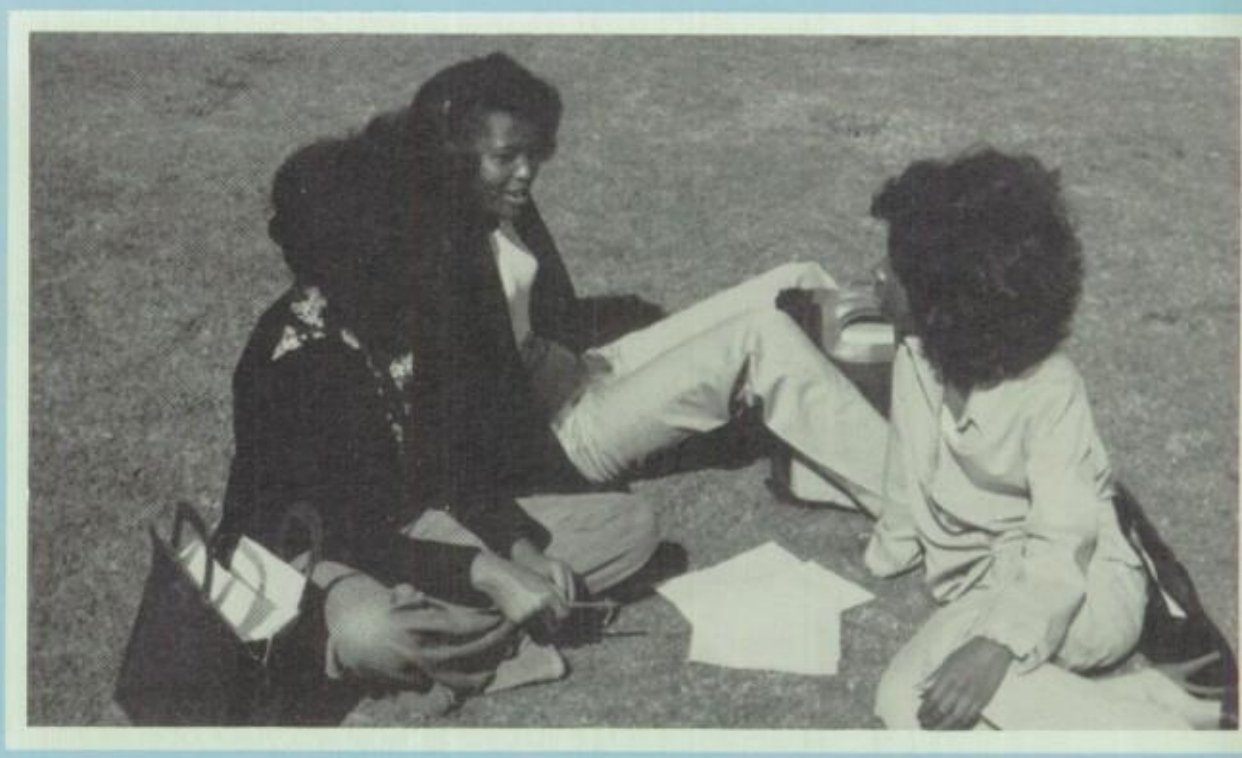
Vol. XI

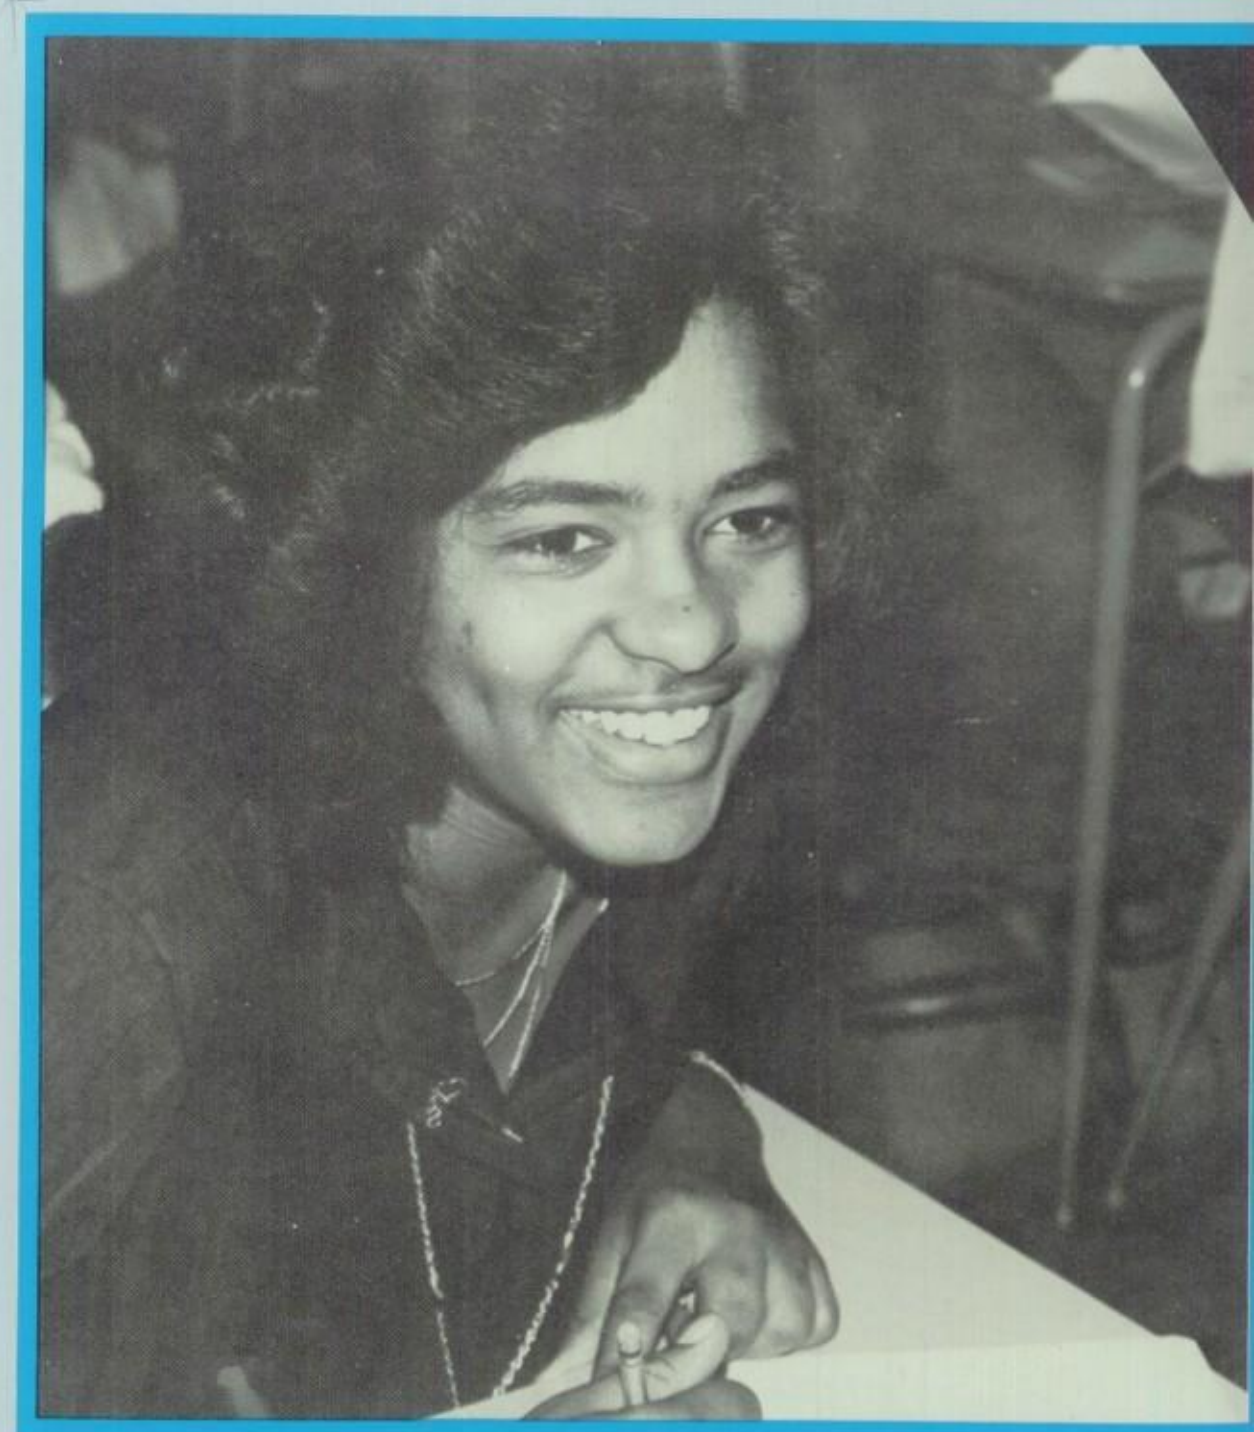




What we read
How we dress
How we look
How we act
Makes us truly
Unique in what we seek.

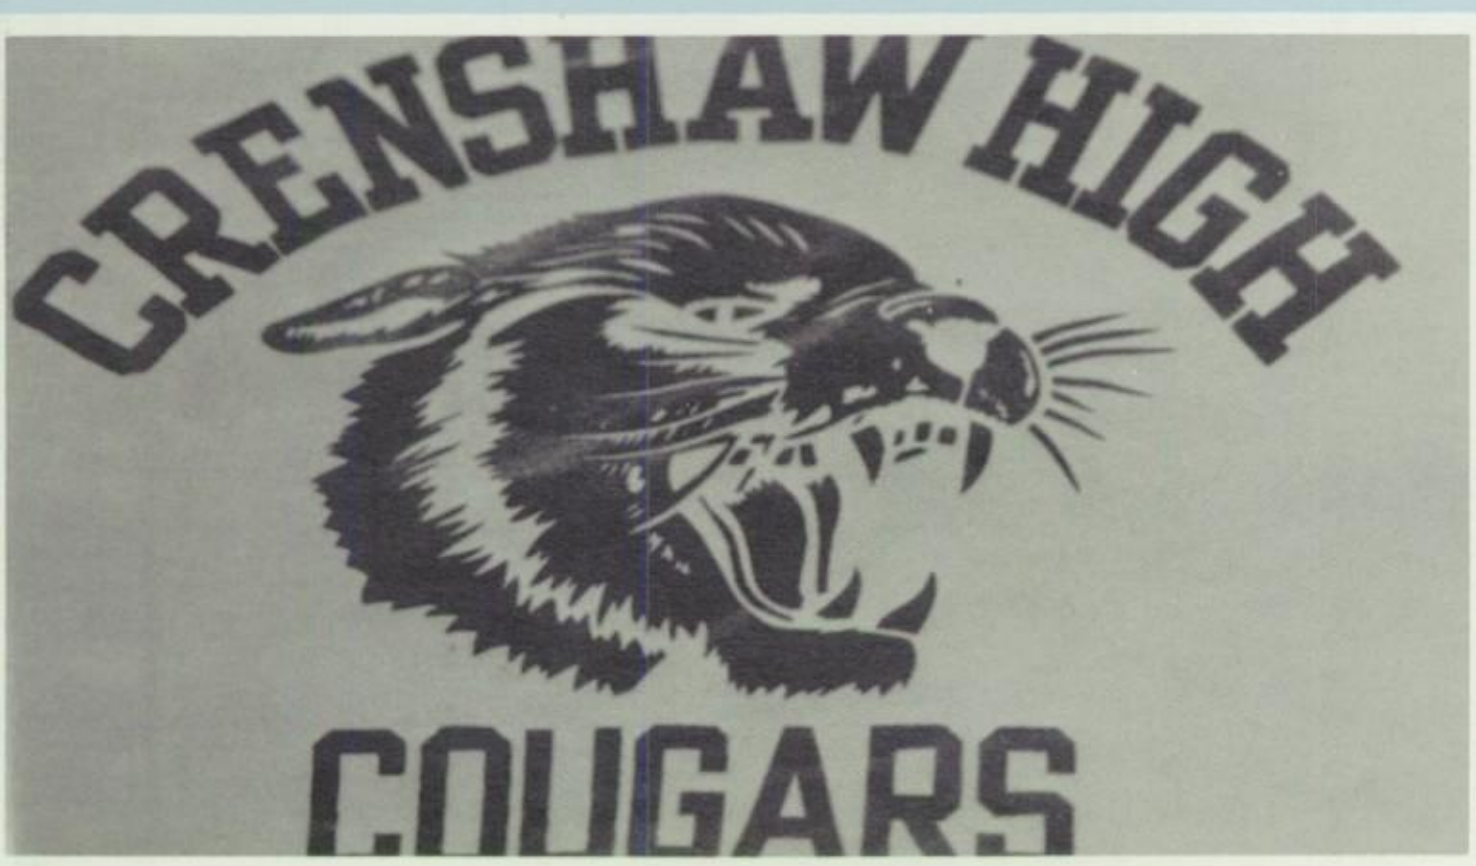


While moving through
School we meet other
Individuals with ideas as
Unique as our own.



Our music, our
Styles, our
Grace, our
Smiles help make
Us Number 1 in
What we try to achieve.

Unique is our spirit.
We allow our voices to
Yell free. We're behind our
Team. There's no way they
Can be beat.



To Nelson
A very nice youngman
who I had the pleasure
of knowing wish the
best of luck out of
school don't forget
next year is my year
so come around to
see how live the class of
80" is

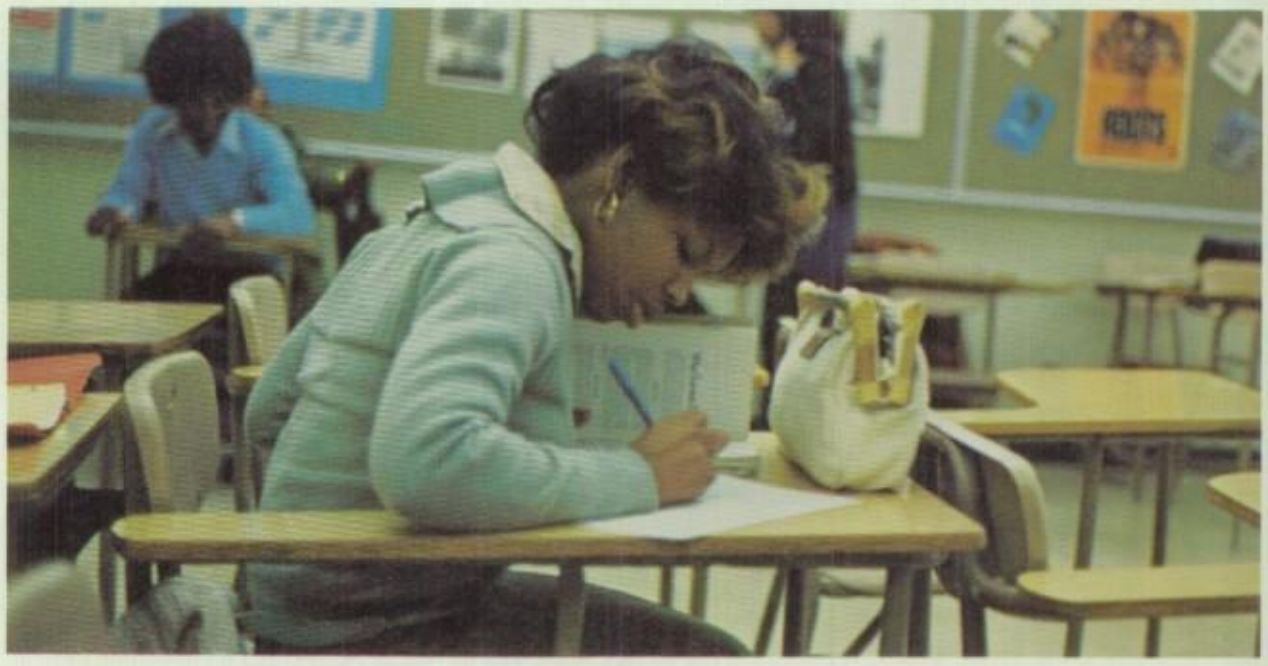
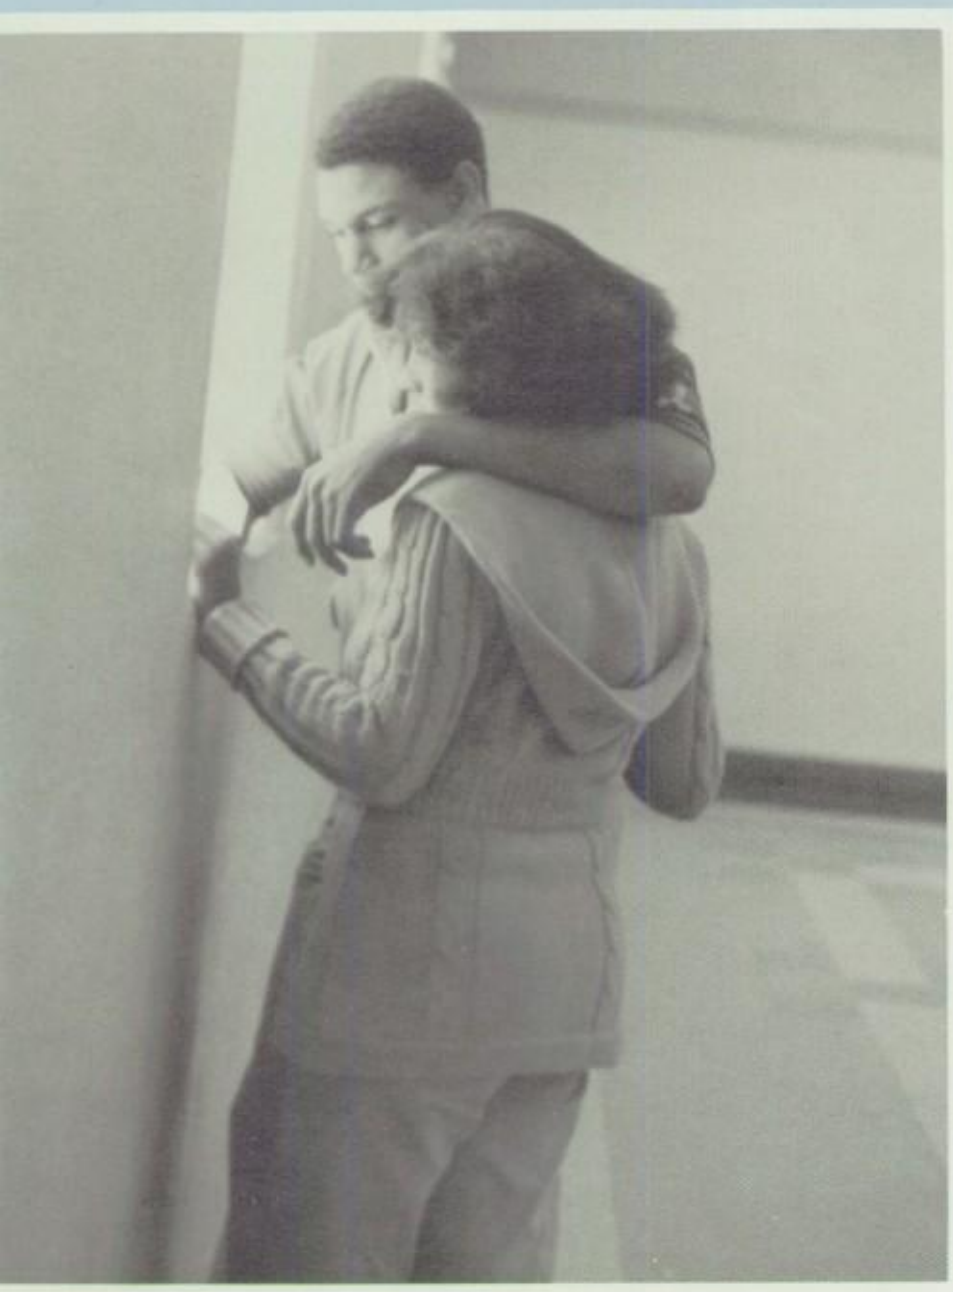
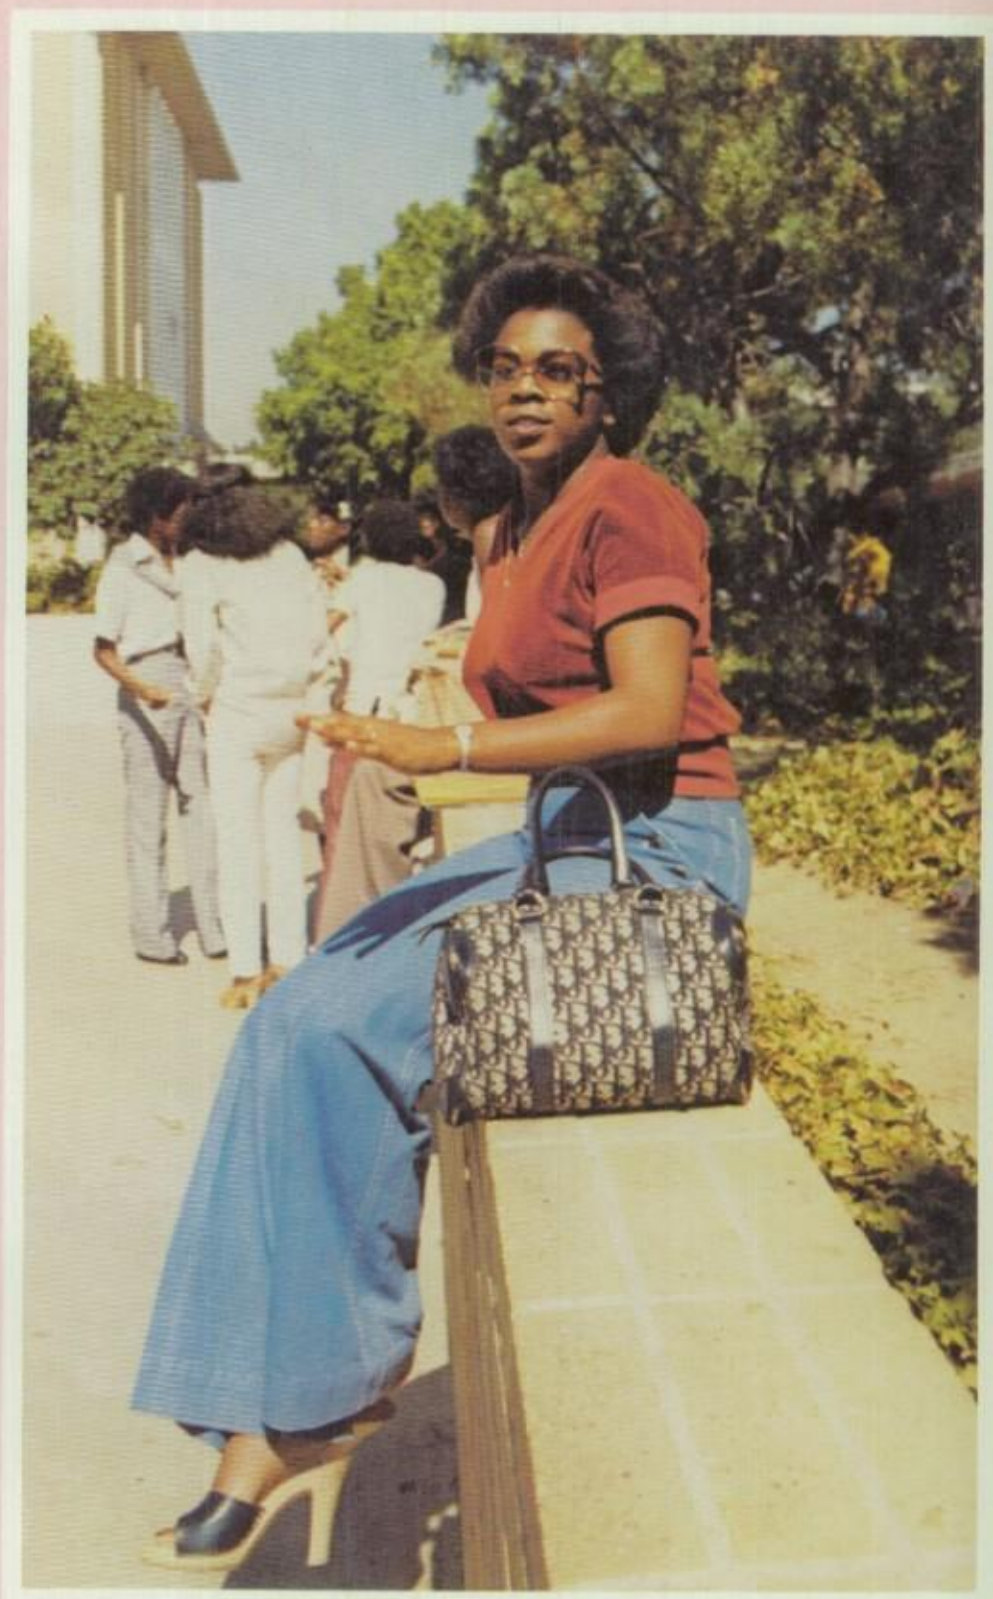
Alone in our thoughts
Producing solutions
together. Seeking out
the innermost feelings
of our minds.



There are many different ways of getting the message across: in our styles, in our music, our looks and in love. We are truly Unique in what we seek.





There's a time for
Joy. There's a time for
Grief. Yet, we remain
Unique in what we seek.

PEP CLUB

Administration Academics

The Crenshaw High School administrative team includes, Mrs. Virginia Hairston, assistant principal; Dr. Robert Reiman, assistant principal; Dr. Lionel Joubert, principal; Mr Patrick Murphy, administrative dean; and Miss Joyce Payton, head counselor.

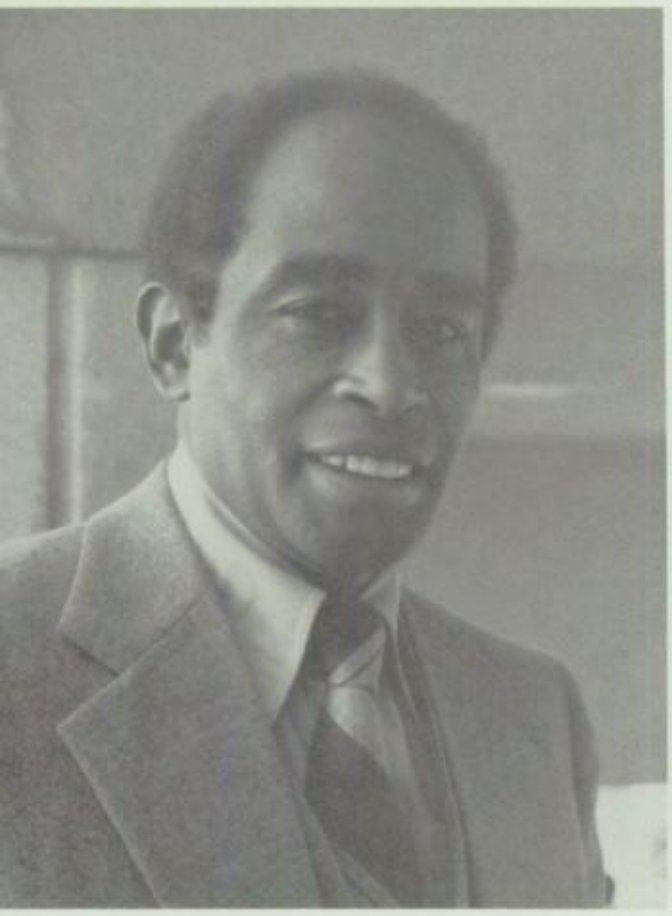
Administration

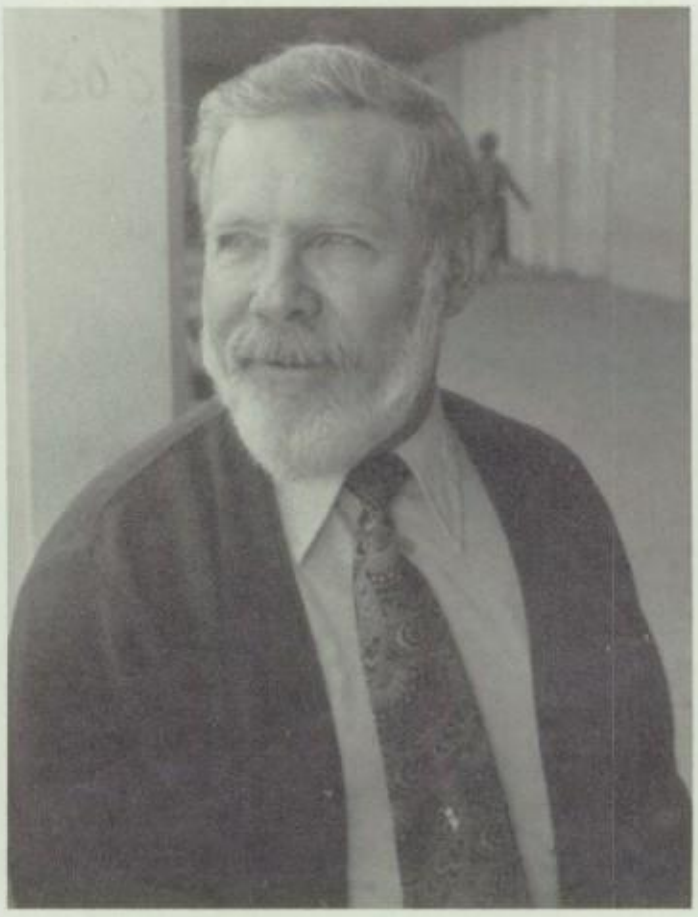
Administration & Faculty

In 1969, when Crenshaw was first built, it was intended to be a magnet school. It was to offer something for everyone. This is reflected in the staff. The student will usually admit that they have a favorite person with whom they relate best. This is due to the fact that each student is regarded as someone special. In this way, Crenshaw teachers and administrators are truly unique in what they seek-Better Education for All.

Dr. Lionel Joubert, our principal, brings to us another unique entry, that of new ideas by which a better educational environment can be derived. The other four administrators, Mrs. Virginia A. Hariston, Asst. principal; Dr. Robert Reimann. Asst. principal; Ms Joyce Peyton; Head Counselor; and Mr. Patrick Murphy are giving the necessary assistance and support needed in order to make Crenshaw what it is, and hope to be in the future.

Opposite page, Dr. Lionel Joubert, principal.
Mr. Robert Reimann (top left), vice-principal.
Virginia Haliston (top right), assistant principal.
Pat Murphy (left), administrative dean.
Joyce Payton (above), head counselor.





DEANS OFFICE

The Dean's Office at Crenshaw High is unique in what it seeks for young people at the high school level. It seeks sound and effective decisions in counseling our students. In reaching decisions, both sides of each situation is heard. That in itself is unique. Through discussions, students are guided to self realization and accepting the responsibility of facing the consequences of his or her own actions. Hopefully, this will result in more mature future decisions and responsible actions.

English Department

Our English Department long considered boring and has turned it into something special. This usually calls for unique techniques. The same work is still done but everyone has more fun doing it. The discussions, readings, and personal writings have been elevated it from the level of being "just english." If one has unusual ability in english, the instructor gives him the encouragement to maximize this ability with the many english electives the department offers.

Social Studies

The Social Studies department makes its title come to life. In History, Government, Leadership, etc., one learns about events that deal directly with our lives, as it is today, as it was yesterday, and sometimes, how it will be tomorrow. The instructors are more than willing to discuss current events or the past, on their own time.

Mathematics Department

Since mathematics is believed to be one of the most difficult subjects to learn, we at Crenshaw are fortunate to have mathematics teachers who are willing to help. Most of them can usually be found in their classrooms throughout the day. They encourage their students to come by for help whenever they have a problem because they too realize that mathematics is not the easiest subject to master; therefore they're willing to do whatever they can to make it a little easier for the students.

Science Department

Involvement is the term that best describes our Science Department. Every one of the teachers have been involved in some part of extra-curricular activity. This is a very heavy load to carry considering the depth of many of the science classes. Not only are our science teachers involved academically, but they sponsor clubs, coach athletic teams, etc.

Counselors and Advisors

Always ready to lend a helping hand, the counselors of Crenshaw High are there when we need them. Everyone appreciates their counselors the most when they reach their senior year. Now under a new system, the counselors have done their best to make ends meet.

Also appreciated are the college and career advisors, who also help us plan our future.

For those who want to work before they leave school, there is Work Experience.

Business Dept.

In the Business Department, a student can learn and sharpen his skills in various courses such as Advanced Typing, Business Machine, Accounting, Shorthand, etc. A student can at least know how to type things such as business letters and resummes, as well as more advanced skills in accounting, writing shorthand from dictations, and much more. In other courses, a student learns to handle money in an intelligent business-like manner.

Industrial Arts

Fine Arts

The uniqueness of the Fine Arts Department exists in the many ways in which it serves the school. The Art Department is active in creating decorations and advertisements for school activities. The Photography class was instrumental in helping take some of the pictures for the Yearbook and newspaper. The Home Economics class makes clothes for needy children each year.

The Art Department's involvement is the unique quality it possesses.

When one walks into an Industrial Arts class, he'll usually see many bright and eager minds involved in the work of a special project. The students don't mind a little hard work and are usually anxious to get into something different. With all this enthusiasm, instructors find that to channel it in the right direction is their biggest task. Coupled with the students involvement, the Industrial Arts instructors have made the shop classes a place where young men can sharpen wits and industrial skills.

SPECIAL ED. DRIVERS ED.

Our three Special Ed. teachers are unique. It takes a unique kind of person to deal with unique students. Our Special Ed. teachers fit the bill with patience, firmness and desire to achieve what they seek.

It takes a great deal of patience and calm nerves to teach students the rules of the road. Mr. Wong in his own way, with interesting projects and lessons helps students learn to drive the safe way.

Varsity football posts 4-4

With many good seniors gone, and a 6-3 record last year, Cougar fans didn't know what to expect from this year's team. After a quick 16-6 loss to Dorsey in scrimmage, the view of the team became more dimmed. In the first game against Sylmar, the Cougars roared out full of confidence and destroyed Sylmar 33-14. The Cougars and their fans rode very high into the next three games which they lost in succession.

When the league opener arrived against Hamilton, many Cougar fans were skeptical about the team. They acted concerned as they defeated Hamilton 40-6. The next game expected to be tough as it was Westchester's Homecoming. The never-say-die Cougars, however, easily beat them 30-6.

Homecoming was our next game and after two successive victories, the team was high on upsetting highly ranked Venice. This was not to be. Despite some of the hardest hitting ever exhibited by an Cougar team, the offense never got started and they lost 19-0.

The next two games were against University and tough Palisades. With both

Front Row: Derrick Worthy, Clifford Madison, Tyrone Toussaint

of these games away, the Cougars would have to work very hard to win.

Against University, after a very tough first half, Crenshaw exploited a 33-16 win. In the next game, if Crenshaw won, they would go to the playoffs but they were playing the very team they had not beaten in 9 years. Against Palisades, Crenshaw came off strong, scoring first, but it was the last time they would score this season, for the Dolphins won the game 25-7. The Cougar's playoff hopes were demolished. Despite not making the playoffs the Cougars had some outstanding players in Rod Jones, All-Western League linebacker, Kim Smith All-League Center and Derrick Worthy, the southpaw quarterback.

With the J.V.'s having an undefeated season, Crenshaw could look for its first league championship since '74.

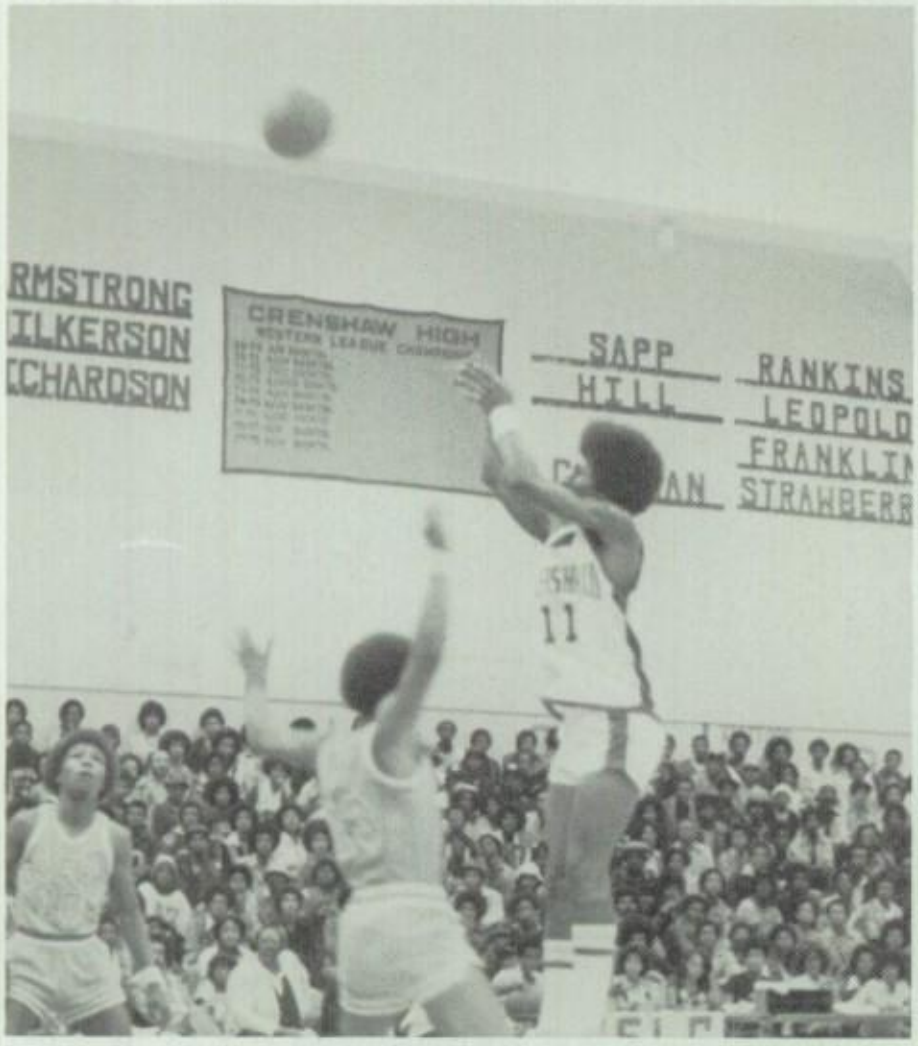
J.V., Bee football

The J.V. season was very successful this year even though the first game was lost to Banning High School which wasn't much of a start. But after that, all the rest of the games were straight wins. The team ended the season with a 9-1 record after beating Palisades in the last game of the season 8-6 in the last two seconds.

The outstanding players of the season were Jimmy Crinton, an outstanding running back from John Muir Junior High, who gained 900 yards, Clint Floyd, star quarterback, John Graham, 6'2" defensive tackle, Raymond Cantie, offensive guard and Ricky Hammond, presafety and wide receiver.

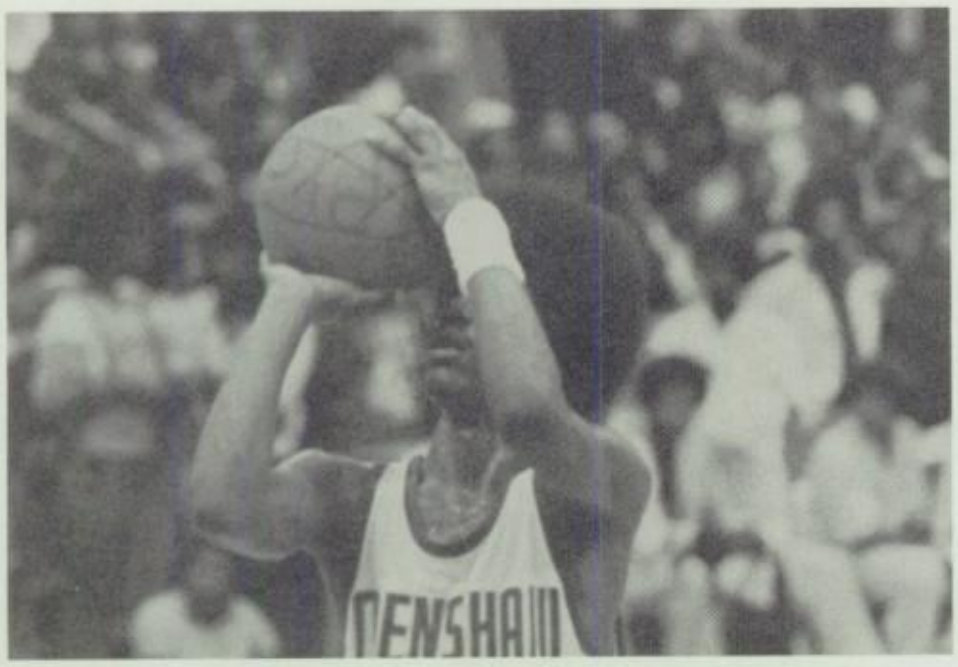
The most difficult game of the competitive season was against Palisades.



Crenshaw Varsity basketball in action

Cordie Dilliard scores on a fast break to Harold Trommer for an easy two points.

Franklin Rhodes scores again.



After last season's Varsity basketball triumphs at the City Championships and at the State Championships, it was wondered by everyone where the Cougars would go from there. The team would lose four starting seniors including Michael Johnson and many off the bench. The Cougar team, it was believed, would need a rebuilding year in '78-79.

When the season opened the tallest man on the court was 6'6 ½" sophomore Gary Maloncon. The only way for the team to win this year would be through diligence. Willie West said "We may not go as far as last year, but we'll be heard from," in an L.A. Times interview.

Touching on what the Cougars did to the ranks of the city, that was a good comment. They ripped opponents with skillful shooting and speed. Franklin Rhodes, Chris Brown, Harold Toomer, Bruce McCree and Gary Maloncon were the starting five. Two seniors, 2 juniors and a sophomore and a strong bench enabled the Cougars to defeat their larger opponents like modern-day Davids. Despite a loss to Palisades in their last game, the Cougars finished with a 9-1 season league record and were named Western League Champions.

Nine ladies win cross country letters

This year's cross country season was the most successful ever for the girls team here at Crenshaw, as the young ladies compiled a 5-2 win-loss record and a third place finish in Western League. They were defeated only by University and Westchester, scoring victories over Franklin, Dorsey, Hamilton, Venice and Palisades.

Nine of the 12 athletes earned letters led by Carol Bryant (29 points) and Linda Rock (23 points). The rest of the lettergirls for the 1978 season were, in order, Eunice Graham (17 points), Cheryle Wilson and Connie Crowell (14 points), Tina Craig (13 points), Yolanda Henry and Nanette Manson (9 points) and Yolanda Rock (6 points).

Carol Bryant won both trophies for MVP and most inspirational, and Yolanda Henry earned the most improved award. With five lettergirls returning and several promising young athletes in the offing, next year should be even more successful. Ben Moshe is the coach for the young ladies cross country team.

Mens Cross Country (front) John Wilson, Forest Dillard (back row) Roger Walters, Jimmy Morris and Douglas Long.

Varsity finishes fourth

The varsity cross country team had a good season, running many exciting meets. The team was led by Jeffrey West who is the school record holder at 16:04. West had a potentially great season spoiled by a broken foot which kept him out most of the season.

The most valuable athlete was Derek Edwards who was a consistent performer throughout the season. Most improved was Charles Lett who, through diligent work, brought times down to one of the best in varsity. The team finished fourth in one of the strongest city leagues.

The junior varsity was represented by a completely new group, none of whom had run cross country before. Everyone improved considerably throughout the season and the Cougars managed to score three victories in seven meets. Franklin Scott, Greg Denby, Marvin Moore, Adrian Calhoun and James Walker proved the major powers.

Led by Johnny Wilson, the best 10th grade cross country runner in the Western League, this team made great strides and greatly improved throughout the season. Douglas Long, who qualified for the city championships, and Jimmy Morris contributed heavily to the team's victories.

The coach is Merle McGee.

Members of the varsity tennis squad included (front row) Robert Hasty, Charles Jackson, Jeffrey Glaze, Gene Jackson, Ricky Record, (second row) Tom Mertens, coach, Anthony Lewis, Ernie Morris, Wallace Henry, James Gray, Kerwin Glover, manager, (third row) Carl Johnson, Mornal Ennis, Charles Tutt, James Gaskin, Malcom Jones and Dwight Roberts.

Varsity Tennis

The Bee team missed the league title in 1978 by one point in the Palisades meet. Bee hopes for a championship this year rest on Jimmy Morris and Douglass Long in the distances, Jimmy Crittenden and Ezell Mayfield (school record holder in the Cee 220 at 23.8) in the sprints, Louis Graham, long jump and hurdles, Kevin Starks and Alan Long, long jump and pole vault and Rodney Jones, high jump and shot put.

The Cees are counting on Everett Bell and Donnie Wilkins in the field events. Donnie will join Randy Childress, Michael Holmes and Michael Farmer in the running events.

Bees aim for possible title; Cees start on a race for future

Bee track team members (above top) were (first row) Larry Smith, Everett Bell, Clint Floyd, Louis Graham, (second row) Coach Frierson, R. Jones, Christopher Barr, Franklin Scott, Coach McGee, (third row) Kevin Starks, Ivar Robinson, Douglass Long and Kelvin Bragg.

Members of the Cee track team included (first row) Morris Marshall, Jerome Torrence, Donnie Wilkins, (second row) Coach Voiles, Michael Farmer, Coach Frierson, (third row) Herman Ferguson, Everett Bell and Fred Darden.

Alan Long (above top) pole vaults and helps the Bee team in the long jump. Jimmy Morris, Douglass Long and Frank Scott (left) carry the hopes of the Bee team in the 880 and Mile. Rodney Jones (above) is the all-around field event athlete for the Bees. He will make a lot of points in the shot put, high jump and long jump.

Jeff West (below) had a tremendous junior year as he ran second in the city 880 and third in the state 880 with a new school record of 1:52.04. He was chosen the Most Improved Athlete last year. Thus far this season, he has broken the school record at 4:22.7 and has his sights set on both the 440 and two-mile records.

Team defends Western League title

The Western League champions (5-0) of 1978 will be trying for a repeat performance in 1979. Last year's team also finished third in the City Championships with 38 points. The hopes of this year's team rest on seniors Jeff West, Phillip Conner, Alfred Jones, Tim Jones, Kim Smith and on junior Greg Denby, actually a Bee.

The Cougar varsity will also be depending on points from its 440 relay team (T. Jones, Willie Frazier, A. Jones and P. Conner). Three members of this team were on the Bee 440 League Championship relay team last year.

Greg Denby (1) won the City Cee high jump championship (6'3") last year and set the Cee record at 6'4". He was selected the Most Improved Cee last year. He has currently raised the Bee high jump record to 6'4". Kim Smith (2) pole vaulted 13' and long jumped 22' last year before injuries sidelined him. If he can stay healthy this year he has a good chance to break the school record in both events. Phillip Conner (3) was a consistent winner for the Bees last year in the sprints. He was the league champion in both the 100 and 220 and was chosen most valuable Bee. He is the number one man for the varsity this year in both sprints and anchors the 440 relay team. The 440 relay team (4/5)–Willie Frazier, Alfred Jones, Phillip Conner and Tim Jones–is made up of the team's top athletes. Alfred Jones is just coming into his own as a fine sprinter in the 100, 220 and 440. He has already run 50.0 in the 440 this year. Tim Jones is a good sprinter and long jumper. He has the lead-off position in the 440 and runs the mile relay. He has consistently jumped over 21 feet this year.

Varsity Baseball

Carol Bryant, left, sets three individual school records in the 880, Mile and Two Mile last year. She was selected Most Valuable Athlete and Most Improved. She should be one of the outstanding middle distance runners in the City this year and is expected to lower the times in all of her school records.

Lori Dynes, below left, holds the school record in the 110 Low Hurdles and has already lowered that to 14.9 this year. She also runs sprints and relays. Yolanda Fletcher, below right, in her first year out, stunned everyone with an early 40'0" throw in the shot put to shatter the school record. She also long jumps and will begin training for the pentathalon.

Members of the girls track team (opposite page) included (first row) Tina Craig, Verginia Wilkins, Connie Crowell, Marciene Gibson, Rita Haven, (second row) Cassandra Dorsey, manager, Linda Rock, Eunice Graham, Caril Bryant, Susie Curtis, Yolanda Rock, Moss Benmosche, coach, (third row) JoJo Hervey, Yolanda Fletcher, Kim Gilmer, Stephfun Grant, Cheryle Wilson, and

The girls team finished fourth in league last year but fifth in the City and third in the State meet thanks to Gwen Gardner and the 440 relay team of Linda Rock, Lori Dynes, Cherle Wilson and Gardner. The outstanding athlete for the girls in 1978 was Carol Bryant. She is back to lead the cindergals to their best season yet. Other key athletes will be Lori Dynes, Cherle Wilson, Linda Rock and Yolanda Fletcher.

They will be suported by Eunice Graham, Sheri Grady, Stephfun Grant, Connie Crowell, Yolanda

When the season opened there were very few individuals who thought the Crenshaw Cougars would repeat as City Champions. Only one starter returned to the squad and the team had no real height, with the exception of 6'6" Gary Maloncon.

Despite these disadvantages, however, the Cougars surprised everyone by defeating supposedly superior teams and steamrolled into the playoffs. They defeated, in succession, Locke, 97-82; third ranked Fremont, 92-85; fourth ranked Dorsey 76-63 and leaped into their second City Championship Finals facing Manual Arts. This, it was thought, was a game the Cougars could not win.

After the contest, though, no one would ever doubt the Crenshaw Cougar's ability. They ripped the Toilers 109-67 and never looked back. Manual was never in the game as the sharp shooting Cougars had the Toilers out the door by halftime.

A week later the team took their act to State and in the first game defeated East Bakersfield 68-75 taking third place after losing to St. Francis 75-59 and beating St. Marys 72-71.

First in the City, third in the State. Not bad for a team with no height but a lot of heart.

Led by their No. 1 player, Sharon Byrd, the girls tennis team had a very successful season. Other outstanding athletes on the team were No. 2 and 3 players Lonnie Jackson and Helen Garcia. A few outstanding victories were over Palisades and University. Ms. Byrd beat the No. 1 player from Palisades twice and the No. 1 player from University once. The No. 1 doubles team of Jo Ann Ferguson and Yolanda Rose were also outstanding. A positive team spirit and unity were the young ladies strongest points.

Next year Ms. Brandon hopes to improve overall team play with the foundation of the team being Vivien Parish.

Sharon Byrd also competed in outside tournaments winning the Miller in the 10th and 11th grades. The tournaments are given each spring for all schools including Inglewood and Morningside. The key to this team's success is that they felt they could win, the coach said.

Special from the editor

When I decided to go to my home school, Crenshaw, instead of Palisades, I really didn't know what to expect. I'd heard a great many unflattering rumors and was told I'd have nothing but problems. However, while attending Crenshaw for three years, I've seen very little of what I'd heard about. What I have seen is a great deal of spirit and desire to be the best at whatever we do.

Pride is something to be marveled at and students do much justice to the colors Blue and Gold. I believe it has been an honor to be the editor of Cougar's Path. It's also an honor to graduate with the Outstanding Class of '79.

Thank you, Crenshaw, for an unforgettable three years.

Third Blue and Gold Assembly successful

For the past three years, Crenshaw High has presented an assembly describing the activities that exist in our institution. This year the assembly was more successful than ever. The grandeur of Blue and Gold left Blue and Gold in everyone's eyes and hearts.

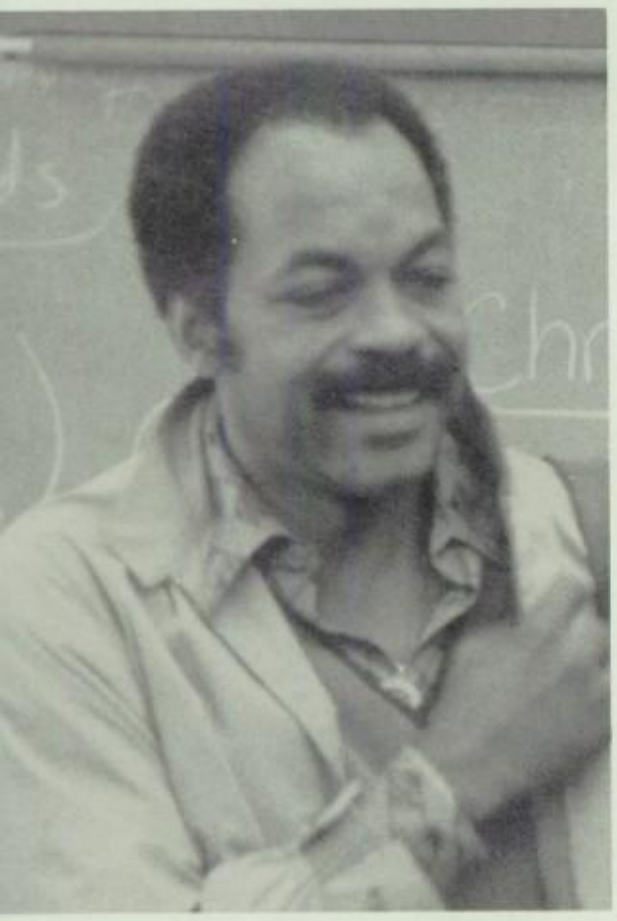
Pancake Breakfast easy way to make club money

Each and every club and activity has an excellent opportunity to make money each year with the Pancake Breakfast. The Cougar Club allows each club to keep half of what they sell. With that as an incentive, hundreds of people showed up that Saturday morning in October for pancakes and sausage.

Our Cheer-leaders

Deep down inside it's every girls desire to be in the spotlight cheering her heart out for the Blue and Gold.

Those who are cheerleaders hold the position with class and dignity. Those who try out do so with style and spirit.



Mandrill's visitation

In our effort to provide more entertainment for our school, the leadership class managed to get the group, Mandrill, to Crenshaw.

Their main message for the student body was "stay in school; it's a rough life out there."

Mandrill's reason for visiting campus was to promote their new album.

During the year Crenshaw High had many successful exchanges with other high schools. The purpose of these exchanges was to promote better relationships between us and other Western League schools.

We exchanged ideas on how to better participation in school activities. It was generally found that most school problems were the same regardless of the area and could be resolved by talking about them. Usually the problems could be worked out.
